

Banking Domain Knowledge Base

Answers Reference Document

This document contains answers to all 120 banking domain questions across 10 categories. Each answer is labeled with its reference number corresponding to the questions document.

1. Account Management

A1.1

Visit your nearest branch with valid ID proof, address proof, and passport-size photographs. Fill out the account opening form and make the initial deposit. You can also open an account online through the bank's website or mobile app by completing the e-KYC process.

A1.2

You typically need: a government-issued photo ID (passport, driver's license, or national ID), proof of address (utility bill or rental agreement), PAN card or tax identification number, initial deposit amount, and passport-size photographs.

A1.3

Submit a written account closure request at your branch along with your passbook, debit card, and unused cheque leaves. Ensure all outstanding dues are cleared and standing instructions are cancelled. The remaining balance will be returned via cheque or NEFT.

A1.4

Minimum balance requirements vary by account type. Basic savings accounts typically require Rs.500-1,000; regular savings accounts require Rs.5,000-10,000; and premium accounts may require Rs.25,000 or more. Failing to maintain the minimum balance may attract penalty charges.

A1.5

Log in to internet banking or visit your branch with valid ID proof. You can update your mobile number, email address, and mailing address. Some updates require OTP verification on your registered mobile number.

A1.6

Yes, you can hold multiple accounts at the same bank — for example, a savings account, a current account, and a salary account simultaneously. Each account has its own account number, and all can be managed through a single internet banking login.

A1.7

Common fees include monthly maintenance charges (Rs.100-500), non-maintenance of minimum balance fee (Rs.100-750 per quarter), cheque book charges, and ATM usage fees beyond the free limit. Some accounts offer zero-fee structures if the minimum balance is maintained.

A1.8

Visit your branch or submit an upgrade request through internet banking. You will need to meet the eligibility criteria for the premium account. The bank will review your profile and process the upgrade, usually within 2-5 working days.

A1.9

An individual account is operated by a single person. A joint account is shared by two or more people and can be operated based on the agreed mode: 'Either or Survivor' (any one can operate), 'Former or Survivor' (only the primary holder), or 'Jointly' (all holders must sign together).

A1.10

Log in to your internet banking portal or mobile app, navigate to 'Account Statement' or 'Transaction History', select the date range, and view or download the statement in PDF or Excel format. Statements are also available via email if you have subscribed to e-statements.

2. Card Services

A2.1

Activate your debit card by using it at any ATM with your PIN, calling the bank's customer service IVR, logging into internet banking and selecting 'Activate Card', or sending an SMS in the prescribed format to the bank's number.

A2.2

Activate your credit card by calling the number on the sticker attached to the card, or through internet banking under 'Card Services > Activate Card'. You may need to set a PIN via the bank's IVR, ATM, or mobile app before first use.

A2.3

Immediately block your card by calling the 24/7 customer care helpline, using the mobile banking app, or logging into internet banking. Report the loss formally to the bank and request a replacement card. Also file a police report if fraud has occurred.

A2.4

Log in to your internet banking or mobile app, go to 'Card Services', and select 'Request Replacement Card'. Alternatively, visit your branch or call customer care. The new card will be delivered to your registered address within 5-7 working days.

A2.5

Standard debit cards have a daily ATM withdrawal limit of Rs.10,000-50,000 and a POS/online transaction limit of Rs.1,00,000-2,00,000, depending on your card variant. You can check or request a limit change through internet banking or customer care.

A2.6

Change your PIN at any bank ATM by selecting 'PIN Change' from the menu. You can also change it through the mobile banking app under 'Card Settings > Set/Change PIN', or by calling the IVR helpline.

A2.7

International usage may be disabled by default for security. Enable it through your mobile app under 'Card Controls > International Transactions' or by calling customer care. Note that foreign currency transactions attract a markup fee (typically 2-3.5%).

A2.8

Immediately call the 24/7 customer care helpline or report via the mobile app under 'Dispute a Transaction'. Block the card to prevent further misuse. The bank will initiate a chargeback investigation, which may take 7-45 working days to resolve.

A2.9

Most banks offer 3-5 free ATM transactions per month at their own ATMs and 3 free transactions at other bank ATMs. Beyond the free limit, charges are typically Rs.20-21 per financial transaction and Rs.8-10 per non-financial transaction.

A2.10

Submit a limit enhancement request through internet banking, mobile app, or by calling customer care. The bank will assess your credit score, income, and repayment history. You may need to provide updated income documents. Approval typically takes 3-7 working days.

A2.11

A debit card directly deducts money from your bank account when used. A credit card allows you to borrow money from the bank up to a set credit limit, which must be repaid by the due date. Credit cards may offer rewards and EMI options but attract interest if not paid in full.

A2.12

Temporarily block (freeze) your card through the mobile banking app under 'Card Controls > Block/Unblock Card', or via internet banking. A temporarily blocked card can be unblocked anytime, unlike a permanently blocked card which requires a replacement.

A2.13

Yes, many banks offer virtual debit or credit cards for secure online shopping. You can generate a virtual card through the mobile banking app or internet banking. Virtual cards have unique numbers, CVVs, and expiry dates, providing an extra layer of security.

A2.14

Contactless payment allows you to tap your card on a compatible POS terminal to pay without entering a PIN for transactions up to Rs.5,000. It is enabled by default on NFC-enabled cards. You can enable or disable it through the mobile app under 'Card Controls'.

3. Transactions and Transfers

A3.1

Log in to your internet banking or mobile app, go to 'Fund Transfer', select the transfer type (NEFT/RTGS/IMPS), add the beneficiary details, enter the amount, and confirm with OTP. You can also transfer money via UPI using the recipient's UPI ID or mobile number.

A3.2

IMPS: up to Rs.5 lakh per transaction. NEFT: no upper limit (bank-defined daily limits apply). RTGS: minimum Rs.2 lakh, no upper limit. UPI: up to Rs.1 lakh per transaction (Rs.2 lakh for certain categories). Daily limits may vary by bank and account type.

A3.3

Domestic wire transfers (RTGS/NEFT) are processed within 30 minutes to 2 hours on working days. IMPS transfers are instant and available 24/7. International wire transfers (SWIFT) typically take 1-5 working days depending on the destination country and intermediary banks.

A3.4

NEFT charges range from Rs.2-25 depending on the amount. RTGS charges are Rs.20-50 for amounts above Rs.2 lakh. IMPS charges are typically Rs.5-15 per transaction. Many banks offer free NEFT/RTGS transfers through internet banking and mobile apps.

A3.5

International transfer charges include a flat fee of Rs.500-2,000 plus a foreign exchange markup of 2-3.5% on the exchange rate. Additional correspondent bank charges may apply. Exact charges depend on the destination country and the amount being transferred.

A3.6

Log in to internet banking, go to 'Payments > Standing Instructions / Auto Pay', and add the payee details, amount, frequency (monthly/weekly), and start date. You can set up automatic bill payments, loan EMIs, and recurring transfers this way.

A3.7

Yes, you can schedule future-dated transfers through internet banking or the mobile app. Go to 'Fund Transfer', enter the details, and select a future execution date. The system will process the transfer on the specified date, provided sufficient funds are available.

A3.8

Cancellation depends on the transfer type. NEFT batch transactions can sometimes be recalled before processing. IMPS and RTGS transactions cannot be reversed once initiated. Contact customer care immediately if you need to attempt a recall.

A3.9

SWIFT (Society for Worldwide Interbank Financial Telecommunication) code is an 8-11 character code that uniquely identifies a bank globally. You need it when sending or receiving international wire transfers. Your bank's SWIFT code is on the bank's website and on your account statement.

A3.10

Log in to internet banking, go to 'Manage Beneficiaries > Add Beneficiary', enter the account number, IFSC code, and name, then confirm with OTP. New beneficiaries typically have a cooling period of 30 minutes to 24 hours before funds can be transferred.

A3.11

RTGS (Real Time Gross Settlement) is an electronic funds transfer system where transactions are processed in real time on an individual basis. It is used for high-value transfers of Rs.2 lakh and above. RTGS operates 24x7 and funds are immediately credited to the beneficiary's account.

A3.12

NEFT (National Electronic Funds Transfer) is an electronic payment system that operates in half-hourly batches, 24 hours a day, 365 days a year. Unlike RTGS, there is no minimum transfer amount. Settlement happens in batches, so transfers may take up to 2 hours.

A3.13

Log in to internet banking or the mobile app and navigate to 'Transaction History' or 'Payment Status'. Enter the transaction reference number (UTR/RRN) to check the status. You can also call customer care with your reference number for an update.

A3.14

Completed transactions generally cannot be reversed automatically. You can raise a transaction dispute or request a recall through customer care. Success depends on whether the beneficiary's bank agrees to return the funds. Always verify payee details before transferring money.

4. Loans and Credit

A4.1

The bank offers a wide range of loans including Personal Loans, Home Loans, Car/Auto Loans, Education Loans, Business Loans, Loan Against Property, Gold Loans, and Two-Wheeler Loans. Each loan type has specific eligibility criteria, interest rates, and repayment terms.

A4.2

Apply online via the bank's website or mobile app, or visit your nearest branch. You will need to submit identity proof, address proof, income documents (salary slips, IT returns), and bank statements. Loan approval is typically within 24-72 hours for eligible applicants.

A4.3

Home loan interest rates typically range from 8.5% to 11% per annum, depending on the loan amount, tenure, credit score, and whether you choose a fixed or floating rate. Rates are linked to the bank's MCLR or external benchmark rate and are subject to periodic revision.

A4.4

Required documents include: identity proof, address proof, income proof (salary slips or IT returns for 2 years), bank statements (6 months), passport-size photos, and the vehicle's proforma invoice. Self-employed applicants may need additional business documents.

A4.5

Loan eligibility is calculated based on your monthly income, existing EMIs, credit score, employment type and stability, age, and the loan tenure. Typically, your total EMI obligations (including the new loan) should not exceed 40-50% of your net monthly income.

A4.6

For floating-rate loans, RBI guidelines prohibit banks from charging prepayment penalties on individual borrowers. For fixed-rate loans, prepayment charges of 2-5% of the outstanding loan amount may apply. Check your loan agreement for the specific terms.

A4.7

Check your outstanding loan balance through internet banking under 'Loan Accounts', via the mobile banking app, by calling customer care, or by visiting your branch. Your monthly EMI statement also shows the outstanding principal and interest breakup.

A4.8

EMI (Equated Monthly Installment) is the fixed monthly payment to repay a loan. It is calculated using: $EMI = P \times r \times (1+r)^n / ((1+r)^n - 1)$, where P is the principal, r is the monthly interest rate, and n is the number of months.

A4.9

Download your loan statement from internet banking or the mobile app under 'Loan Accounts > Statement'. You can also request a physical statement at your branch or by calling customer care. Annual loan statements are often sent to your registered email address.

A4.10

Missing an EMI results in a late payment penalty (typically 2-3% per annum on the overdue amount) and a negative impact on your credit score. Contact the bank immediately to discuss restructuring options if you anticipate difficulty in making payments.

A4.11

Yes, loan restructuring is possible in cases of financial hardship. You may request an extension of tenure (which reduces EMI), a moratorium, or a change in repayment structure. Contact your branch or relationship manager. Note that restructuring may affect your credit score.

A4.12

Processing fees vary by loan type: Personal loans 1-3%; Home loans 0.25-1%; Car loans 0.5-2%; Education loans nil to 1% of the loan amount. Processing fees are generally non-refundable. GST at 18% is also applicable on the processing fee.

A4.13

Pre-approved personal loans can be disbursed instantly. Standard personal loans take 1-3 working days. Home loans take 7-15 working days depending on property document verification. Car loans take 1-3 days. Timelines depend on the completeness of your documentation.

A4.14

A fixed interest rate remains constant throughout the loan tenure, offering predictable EMIs. A floating rate changes with market conditions (linked to MCLR or repo rate), meaning your EMI can increase or decrease. Floating rates are generally lower initially but carry interest rate risk.

5. Internet and Mobile Banking

A5.1

Visit the bank's website, click 'Register for Internet Banking', and enter your account number, registered mobile number, and debit card details. Verify with OTP, set a username and password. Alternatively, registration can be done at your branch or ATM.

A5.2

Click 'Forgot Password' on the login page, enter your user ID and registered mobile number, verify with OTP, and set a new password. You can also reset it via the mobile app or by calling customer care and completing the IVR-based reset process.

A5.3

Yes, mobile banking uses multiple security layers including 256-bit SSL encryption, two-factor authentication (OTP), biometric login (fingerprint/face ID), and session timeout. Always download the app from official stores and avoid using public Wi-Fi for banking transactions.

A5.4

Search for the bank's official app name on the Google Play Store (Android) or Apple App Store (iOS). Ensure you download the official app published by the bank. Avoid downloading apps from third-party websites. The app is free to download and use.

A5.5

Mobile banking offers: account balance and statement viewing, fund transfers (NEFT/RTGS/IMPS/UPI), bill payments and recharges, credit/debit card management, FD/RD account opening, loan EMI payments, cheque services, investment options, and 24/7 customer support access.

A5.6

Two-factor authentication (2FA) is enabled by default for all transactions. You can manage 2FA settings in the mobile app under 'Security Settings'. OTP-based verification is mandatory for high-value transactions, new payee additions, and profile changes.

A5.7

Yes, you can pay utility bills (electricity, water, gas), mobile/DTH recharges, insurance premiums, tax payments, and more through internet banking. Go to 'Payments > Bill Pay', add the biller, enter the amount, and confirm with OTP.

A5.8

Log in to internet banking, go to 'Manage Payees > Add Payee', enter the payee's account details (account number, IFSC code, name), and confirm with OTP. A cooling period of up to 24 hours may apply before you can transact with a new payee.

A5.9

Use the 'Forgot Password' or 'Unlock Account' option on the login page. If that does not work, call customer care with your account details for identity verification and account unlocking. Accounts are typically locked after 3-5 failed login attempts for security.

A5.10

A transaction password can be generated through internet banking under 'Security Settings > Transaction Password', or via the IVR helpline. Some banks use OTPs instead of a fixed transaction password for each individual transaction.

A5.11

Yes, you can open an FD directly through the mobile banking app. Go to 'Deposits > Open Fixed Deposit', enter the amount and tenure, choose the interest payout option, and confirm. The funds will be debited from your linked savings account instantly.

A5.12

To update your registered mobile number, visit your branch with ID proof and fill out a mobile number change request form. Some banks allow this via internet banking with enhanced verification. This is a sensitive update and usually cannot be done over the phone alone.

6. Deposits and Investments

A6.1

A Fixed Deposit (FD) is a savings instrument where you deposit a lump sum for a fixed tenure at a predetermined interest rate. The bank pays interest at maturity or periodically based on your choice. FDs offer higher interest rates than savings accounts and guaranteed returns.

A6.2

FD interest rates typically range from 6% to 8.5% per annum, depending on the tenure, deposit amount, and the bank's current rate card. Senior citizens usually get an additional 0.25-0.50% over the regular rate. Rates are subject to periodic revision by the bank.

A6.3

Yes, you can break (prematurely withdraw) an FD before maturity, but a penalty of 0.5-1% may be deducted from the applicable interest rate. Some tax-saving FDs with a 5-year lock-in period cannot be broken prematurely under any circumstance.

A6.4

A Recurring Deposit (RD) is a savings scheme where you deposit a fixed amount every month for a predetermined tenure. At maturity, you receive the total deposited amount plus accumulated interest. RDs are ideal for building savings through regular monthly contributions.

A6.5

Open an FD via internet banking, mobile app, or by visiting a branch. Choose the deposit amount, tenure (7 days to 10 years), and interest payout method (monthly, quarterly, or at maturity). The amount is debited from your savings account and the FD is created instantly online.

A6.6

The minimum FD amount varies by bank but is typically Rs.1,000 for regular FDs. Some banks allow FDs starting from Rs.100 on digital platforms. For bulk deposits and special rate FDs, the minimum amount may be Rs.1 crore or more.

A6.7

Yes, deposits in Indian banks are insured by the Deposit Insurance and Credit Guarantee Corporation (DICGC). Each depositor is insured up to Rs.5 lakh per bank across all deposits including savings, FD, and RD accounts. This insurance is automatic and free of cost.

A6.8

FD tenures range from 7 days to 10 years. Short-term FDs: 7 days to 1 year. Medium-term: 1-3 years. Long-term: 3-10 years. Tax-saving FDs have a mandatory lock-in of 5 years. Higher interest rates are generally offered for tenures of 1-3 years.

A6.9

Savings account interest is calculated on the daily closing balance and credited quarterly or monthly. The interest rate is typically 2.5-7% per annum. Formula: $\text{Interest} = (\text{Daily Balance} \times \text{Rate} \times \text{Days}) / 365$. Interest earned above Rs.10,000 per year is taxable.

A6.10

Yes, you can get an overdraft or loan against your FD of up to 90% of its value. The interest rate on such loans is typically 1-2% above the FD rate, making it one of the cheapest borrowing options. The FD

continues to earn interest during the loan period.

A6.11

Mutual funds pool money from investors and invest in a diversified portfolio of stocks, bonds, or other securities. Banks offer mutual fund investment services through their branches or digital platforms. You can invest via SIP (monthly installments) or lump sum, subject to market risks.

A6.12

You can invest in government securities (G-Secs), RBI Bonds, and Sovereign Gold Bonds through the bank's internet banking platform or the RBI Retail Direct portal. Speak to your bank's investment advisor or relationship manager for guidance on suitable government bond options.

7. Security and Fraud Prevention

A7.1

Key steps: never share your PIN, OTP, or password; use strong unique passwords; enable transaction alerts; avoid public Wi-Fi for banking; regularly monitor account statements; use only the bank's official app and website; and enable two-factor authentication for all transactions.

A7.2

Phishing is a fraud attempt where criminals impersonate banks through fake emails, SMS, or calls to steal your credentials. Avoid it by never clicking suspicious links, always verifying the website URL (look for https://), not sharing OTPs, and reporting suspicious communications to the bank.

A7.3

Report immediately by calling the 24/7 customer care helpline, through internet banking under 'Dispute Transaction', or via the bank's mobile app. Block your card if you suspect unauthorized access. File a complaint with the cybercrime portal (cybercrime.gov.in) if needed.

A7.4

Security features include 256-bit SSL encryption, OTP-based two-factor authentication, virtual keyboard, session timeout, IP tracking, device binding, account lock after failed attempts, and real-time transaction alerts. The bank monitors unusual activity patterns 24/7.

A7.5

It is recommended to change your internet banking password every 90 days. Change it immediately if you suspect it has been compromised. Use a password with at least 8 characters including uppercase, lowercase, numbers, and special characters. Never reuse old passwords.

A7.6

OTP (One-Time Password) is a temporary, single-use code sent to your registered mobile number or email to verify your identity during transactions. It is valid for a short time (typically 30 seconds to 10 minutes). OTPs ensure unauthorized transactions cannot be completed without your phone.

A7.7

Log in to internet banking or the mobile app, go to 'Settings > Alerts / Notifications', and enable SMS and email alerts for debits, credits, login activities, and large transactions. You can set a threshold amount above

which you wish to receive alerts.

A7.8

Do not click any links or download attachments. Do not reply or provide any personal information. Forward the email to the bank's fraud reporting email address, then delete it. Call the bank's customer care to verify if the communication was genuine.

A7.9

No. Bank employees, including customer care staff, will never ask for your password, PIN, OTP, or full card number. If anyone claiming to be from the bank asks for this information, it is a fraud attempt. Hang up immediately and report the incident to the bank.

A7.10

Genuine bank communication will: address you by name, come from official bank email domains (e.g., @bankname.com), not ask for sensitive information, not create panic with urgent warnings, and direct you to the bank's official website. When in doubt, call the official customer care number.

A7.11

The bank offers zero-liability protection for unauthorized transactions if reported promptly (within 3 days for full protection). Liability may be limited if there is negligence on the customer's part. The bank will investigate and resolve disputes within 90 days as per RBI guidelines.

A7.12

Log in to internet banking or the mobile app, go to 'Card Controls' or 'Transaction Limits', and set daily limits for ATM withdrawals, POS transactions, and online purchases. You can also individually restrict international usage, contactless payments, or e-commerce transactions.

8. Customer Service

A8.1

The 24/7 customer care helpline is available round the clock for urgent queries. Branch banking hours are typically 9:30 AM to 4:00 PM Monday to Friday, and 9:30 AM to 1:00 PM on Saturdays. Branches are closed on Sundays and public holidays. Internet and mobile banking are available 24/7.

A8.2

You can reach customer support via: toll-free helpline (24/7), branch visit during working hours, internet banking chat support, mobile app in-app chat or callback request, email, or postal address for written complaints. The helpline number is printed on the back of your card.

A8.3

Yes, you can visit any branch of the bank for most services. However, some services (such as account closure or certain document submissions) may require you to visit your home branch. Core Banking Solution (CBS) allows most transactions at any branch across the country.

A8.4

File a complaint through: internet banking under 'Service Request > Complaint', mobile app, email, or by visiting a branch and filling out a complaint form. You will receive a reference number to track your complaint

status. All complaints must be acknowledged within 3 working days.

A8.5

If unsatisfied with the resolution, escalate to the Branch Manager, then to the Zonal/Regional Nodal Officer, and finally to the Banking Ombudsman (RBI) if the issue remains unresolved for 30 days. Contact details for the Ombudsman are available on the RBI website.

A8.6

Simple complaints are resolved within 3-7 working days. Complex issues such as fraud or loan disputes may take up to 30 working days. As per RBI guidelines, if the complaint is not resolved within 30 days, you can escalate to the Banking Ombudsman.

A8.7

Yes, the bank's customer care is available in multiple regional languages including Hindi, Tamil, Telugu, Kannada, Malayalam, Marathi, Bengali, and others depending on the region. Select your preferred language when calling the IVR helpline.

A8.8

Log in to the mobile app or internet banking and select 'Request Callback' under 'Support / Help'. Enter your preferred callback time and contact number. A customer service representative will call you within the specified timeframe, usually within 2-4 hours.

A8.9

Yes, the bank provides a toll-free number accessible 24/7 at no cost from any mobile or landline within India. The toll-free number is printed on the back of your debit/credit card and on the bank's official website. International callers can use a chargeable number.

A8.10

Share feedback through: internet banking or mobile app under 'Feedback / Suggestions', the bank's official website feedback form, branch feedback forms, or directly to the Branch Manager. Your feedback is valuable and helps improve banking services.

9. Fees and Charges

A9.1

Most banks allow 3-5 free ATM transactions per month at their own ATMs and 3 free transactions at other bank ATMs (in metros). Beyond this, charges are Rs.20-21 per financial transaction. In non-metro areas, up to 5 free transactions at other bank ATMs may be available.

A9.2

NEFT via internet banking is free as per RBI mandate. IMPS charges Rs.5-15 per transaction. RTGS charges Rs.20-50 depending on the amount. UPI transactions are free for P2P and most P2M payments. Additional charges may apply for international transfers or premium payment services.

A9.3

The first chequebook (typically 20-25 leaves) is usually free per year. Subsequent chequebooks cost Rs.50-150. Premium and business account holders may receive additional free chequebooks. Emergency or

personalized chequebooks may have higher charges.

A9.4

Demand draft charges typically range from Rs.25 to Rs.250 depending on the amount: up to Rs.5,000 — Rs.25; Rs.5,001-10,000 — Rs.50; Rs.10,001-1 lakh — Rs.100; above Rs.1 lakh — Rs.150-250. Some banks charge a flat rate or a percentage of the amount.

A9.5

Accounts closed within 14 days of opening are typically free. Closure within 14 days to 1 year may attract a charge of Rs.300-1,000. Closure after 1 year is usually free. Some banks waive closure charges entirely regardless of when the account is closed.

A9.6

Yes, non-maintenance of the Average Monthly Balance (AMB) attracts a penalty of Rs.100-750 per quarter depending on the shortfall and account type. Zero-balance accounts (such as Basic Savings Bank Deposit Accounts) do not have this penalty.

A9.7

Foreign currency transactions on debit/credit cards attract a cross-currency markup of 2-3.5% of the transaction value. ATM withdrawals abroad may also incur a flat fee of Rs.100-500 per transaction. Always check the applicable exchange rate and charges before transacting abroad.

A9.8

SMS alert charges are typically Rs.15-25 per quarter for standard accounts. Some banks offer free SMS alerts for premium account holders or for a limited number of alerts. You can manage your SMS alert preferences through internet banking or by visiting a branch.

A9.9

Credit card annual fees range from nil (lifetime-free cards) to Rs.500-10,000+ for premium cards. Most banks waive the annual fee if you spend above a threshold amount in a year. The joining fee for the first year may differ from the annual renewal fee.

A9.10

Fee waivers are often available if you maintain a higher-than-required average balance, achieve a certain transaction volume, are a premium or salary account holder, or have a long-standing relationship with the bank. Contact your relationship manager or branch to request applicable fee waivers.

10. General Banking

A10.1

KYC (Know Your Customer) is a regulatory process mandated by RBI to verify the identity and address of customers. It helps prevent money laundering, fraud, and financial crimes. KYC documents include ID proof (Aadhaar, PAN, passport) and address proof. Without valid KYC, account operations may be restricted.

A10.2

Visit your nearest branch with original and self-attested copies of updated ID and address proof documents. Some banks allow video KYC (V-KYC) for re-verification without a branch visit. KYC must be updated every

2-10 years depending on your risk category as assessed by the bank.

A10.3

IFSC (Indian Financial System Code) is an 11-character alphanumeric code that uniquely identifies a bank branch for electronic fund transfers. You can find it on your chequebook, passbook, account statement, and the bank's official website. It is required for NEFT, RTGS, and IMPS transfers.

A10.4

Branch working hours are generally 9:30 AM to 4:00 PM on weekdays and 9:30 AM to 1:00 PM on the 2nd and 4th Saturdays. Branches are closed on Sundays, 1st, 3rd, and 5th Saturdays, and public holidays. ATMs and digital banking services are available 24/7.

A10.5

Yes, special services for senior citizens (aged 60+) include priority service at branches, higher FD interest rates (0.25-0.50% extra), doorstep banking services, simplified account opening, and dedicated relationship managers at select branches.

A10.6

A Demand Draft (DD) is a pre-paid negotiable instrument issued by the bank and guaranteed for payment. Unlike a personal cheque, a DD cannot bounce since it is backed by the bank's funds. DDs are used for large, secure payments where personal cheques may not be accepted.

A10.7

Bank statements can be obtained via: internet banking (download PDF/Excel), mobile app, email (subscribe to e-statements), passbook update at branch, ATM (mini statement), or by requesting a physical statement at your branch (charges may apply). Statements are available for up to 10 years.

A10.8

MICR (Magnetic Ink Character Recognition) is a 9-digit code printed at the bottom of your cheque leaf in special magnetic ink. It identifies the bank, city, and branch for faster processing of physical cheques. The MICR code is also available on the bank's website and your account passbook.

A10.9

Yes, you can nominate up to one person for your savings/FD account. The nominee will receive the account balance in the event of the account holder's death. Nomination can be added at account opening or later by submitting Form DA1 at your branch or through internet banking.

A10.10

Link your PAN by logging into internet banking under 'Profile > PAN Linking', or by visiting your branch with your PAN card and a copy. PAN linking is mandatory for transactions above Rs.50,000 and to prevent TDS deductions on interest income. It can also be done via the bank's mobile app.

A10.11

IFSC (11-character alphanumeric) identifies a specific bank branch within India and is used for domestic transfers (NEFT/RTGS/IMPS). SWIFT code (8-11 characters) identifies a bank globally and is used for international wire transfers. Both are unique to each bank branch but serve different transfer systems.

A10.12

Request a balance certificate at your branch or through internet banking under 'Service Requests > Balance Certificate'. It is typically issued within 1-2 working days and may attract a nominal charge of Rs.50-200. It is often required for visa applications, loans, and financial references.
